ENVIRONMENTAL AWARENESS/PLANTATION PROGRAMME: -

On the eve of world environmental day on 5th June 2008 a seminar was organized in RAH office premises out of its own fund for the 2th time which was attended by a large no. of people. Many dignitaries such as official of horticultural department were invited to give their valuable suggestion and make the people understand the benefits and effectiveness of protecting environment, the professionals of RAH and 100s of local people planted seedlings in the area of Khairachhat and Pupunji, Bokaro. Local student were organized to undertake a rally around the area to increase awareness among the local people regarding plantation activity for environmental sustainability. It was barren and it was us RAHs who with our hard work have transformed it into one of the green and beautiful places in Jharkhand.
